B. Information on the offered financial services

The financial institution provides asset management services and transaction-based investment advisory services to its clients. In the case of a transaction-based investment advisory mandate with the financial institution, a personal recommendation relating to individual financial instruments is provided to the client. The decision to buy or sell remains always ultimately with the client.

The financial institution also provides financial services in collective investment schemes and structured products. For further information on the various collective investment schemes and structured products, the general risks, specifications, and operating procedures, please refer to the relevant prospectuses, termsheets and factsheets on this website.

The financial institution does not guarantee any yield nor performance of investment activities. The investment activity can therefore lead to an appreciation in value and to a depreciation in value.

The financial institution has the necessary licenses to perform the above services.

C. Client segmentation

Financial service providers are required to classify their customers into a client segmentation as legally established. The Financial Services Act provides for «retail customers», «professional customers» and «institutional customers» segments. For each customer, a customer classification is determined within the framework of the cooperation with the financial institution. Subject to certain conditions, the customer may change the customer classification by opting in or opting out.

D. Information on risks and costs

General risks associated with financial instruments transactions

The investment advisory and asset management services involve financial risks. The financial institution shall provide all clients with the «Risks associated with Financial Instruments Transactions» brochure prior to the execution of the contract. This brochure can also be found at www.swissbanking.org.

Clients of the financial institution may contact their client advisor at any time if they have any further questions.

Risks associated with the offered services

For a description of the various risks that may arise from the investment strategy for clients' assets, please refer to the relevant Investment advisory or asset management agreements.

In the case of investment advice, the financial institution shall provide its retail clients with the basic information sheet of the recommended financial instrument.

Information on costs

A fee is charged for the services rendered, which is usually calculated on the assets under management and/or on a performance basis. For more detailed information, please refer to the relevant Investment advisory or asset management agreements.

E. Information about relationships with third parties

F. Information on the market offer considered

The financial institution basically follows an «open universe approach» and tries to make the best possible choice for the client when selecting financial instruments. The financial institution's own collective investments can - where appropriate - be used in the asset management mandates or recommended as part of investment advice.
