YOUR NEED - OUR SOLUTION

HELPING YOU SET UP AND RUN YOUR NOTE (AMC, CLN)

- In close cooperation with our partner «**GenTwo**» we are the creators of a new generation of financial products and serve our clients with the ability to securitize bankable and non-bankable assets with a Swiss ISIN no. and the exclusion of any bank risk (off-balance sheet) - fast and at competitive prices.
- We enable your project by ***providing the required regulatory status***.

Since 2009 MRB has been supervised by the Swiss Financial Market Supervisory Authority (FINMA) as an asset manager of collective investment schemes (since 2009).

- We support you in the ***selection of high-quality service providers*** (custodian bank).
- We stay involved during the process of setting up your note and actively interact with service providers (administrator, custodian) and regulatory authorities to get your note started as quickly as possible.
- If you need a special solution: Trust that most probably we will find a set-up that will serve your needs.
- If you are truly unique: In selected cases we are promoting notes within our growing network of investors and may get actively involved in raising seed money for your project.

INDICATIVE STRUCTURE

YOUR NEED - OUR SOLUTION

PRICE TAG

- Each set-up and structure is unique so that (inevitably) prices may vary:

Expect a note of USD 10 mio. in size to have total structural running costs of ca. 0.25% p.a. (covering launch, administration, custody, risk management, compliance, audit and regulatory authorities).

- For its services MRB will charge an additional fee that varies with a note's complexity and the resources that are needed to run and maintain your individual solution.

- With your own SPV in place you may launch an ***unlimited number of notes from the same SPV at marginal costs*** (no additional SPV set-up fee for 2nd note; no additional SPV min. maintenance fee for 2nd note because the minimum applies to all issued notes together).

This document is explicitly not intended for persons whose nationality, place of residence or other characteristics prohibit access to such information due to applicable legislation. In case of doubt, please contact a local sales representative or bank. A positive performance in the past or the indication of such a performance is no guarantee for a positive performance in the future. Investments in foreign currencies may be subject to currency fluctuations. There is an additional risk that the foreign currency may lose value against the investor's reference currency. The most recent sales prospectus, the fund contract, the key investor information (KIID), if available, as well as the most recent annual and/or semi-annual report may be obtained free of charge from the fund's management company or representative. For units distributed in and from Switzerland, the place of performance and jurisdiction is the registered office of the fund's representative.
